About Me

ai summerize icons and links go there

My name is Oleksandr Harazha, and I am 22 years old. I love writing vanilla PHP, and I like building with Laravel. To learn about me as a vanilla PHP developer, please read my "Vanilla Core" MVC framework, which I built with love, on purpose, to see how a backend works from the inside, at a low level. To learn about me as a Laravel developer, please read my "Thirteen Flies", a fully-fledged e-commerce API with Filament as the admin panel and Stripe Checkout integration.

Skills

- Keyword research;
- Technical SEO;
- On-page SEO;
- Team leadership;
- Languages: English - Intermediate, Latin - Elementary, Ukrainian - Native;
